1

Define your problem statement

In our society we have peoples with disabilities. The project aims to develop a system that converts the sign language into human hearing voice in the desired language to convey a message to normal people.

[10 minutes](#)

PROBLEM

To develop an AI model that converts sign language into a speech that can be understood by normal people.

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

2

Brainstorm

Have a each participant begin in the brainstorm space by silently brainstorming ideas and placing them into the template.

[10 minutes](#)

TIP

You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

The leader should be the one who is most familiar with the project and the team.

Team Member 1

Team Member 1 should be the one who is most familiar with the project and the team.

Team Member 2

Team Member 2 should be the one who is most familiar with the project and the team.

Team Member 3

Team Member 3 should be the one who is most familiar with the project and the team.

Team Member 4

Team Member 4 should be the one who is most familiar with the project and the team.

3

Group ideas

Have everyone move their ideas into the group sharing space within the template and have the team silently read through them.

[20 minutes](#)

Programming Aspects

It is an open and free source.

Analysis

Analysis and testing the model.

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Datasets

The dataset is a collection of data points.

Recognition

Recognition and testing the model.

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

[20 minutes](#)

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of their importance, which tasks are more feasible than others? [Cost, time, effort, complexity, etc.]

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.
